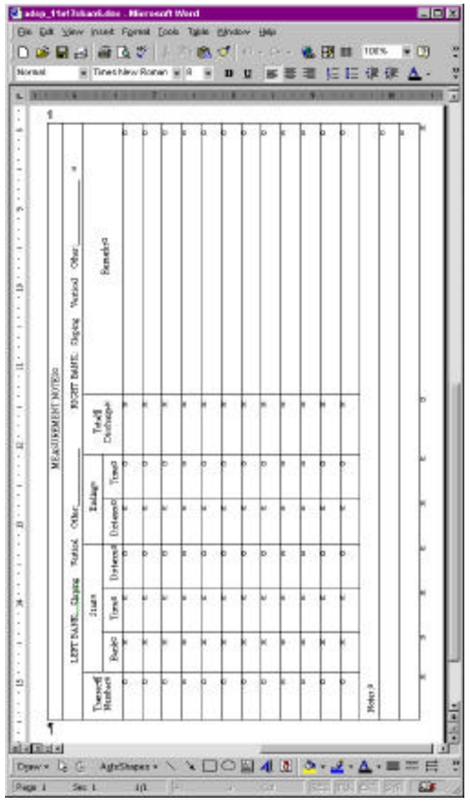
Printer Instructions ADCP Measurement Note Form

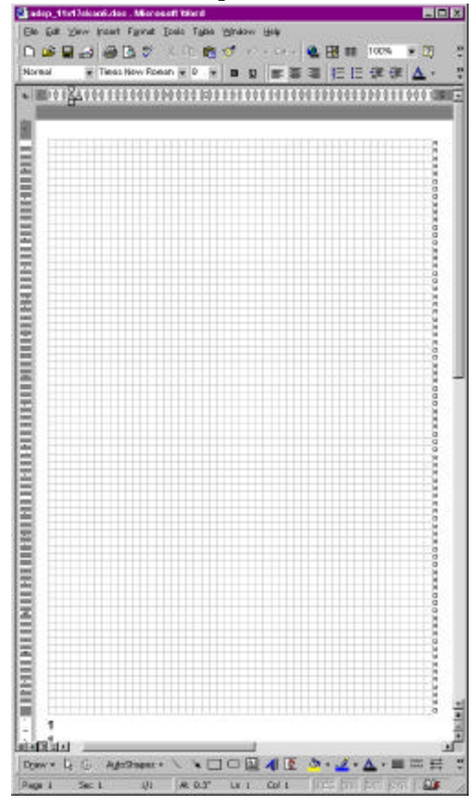
The form can be printed on a standard laser printer using 11x17 paper. However the final form will be on that is like 9-275 F (attached). The final dimensions of the form must be 5”x8”. There are four sections to the form. Each of them are shown below and their layout is described.

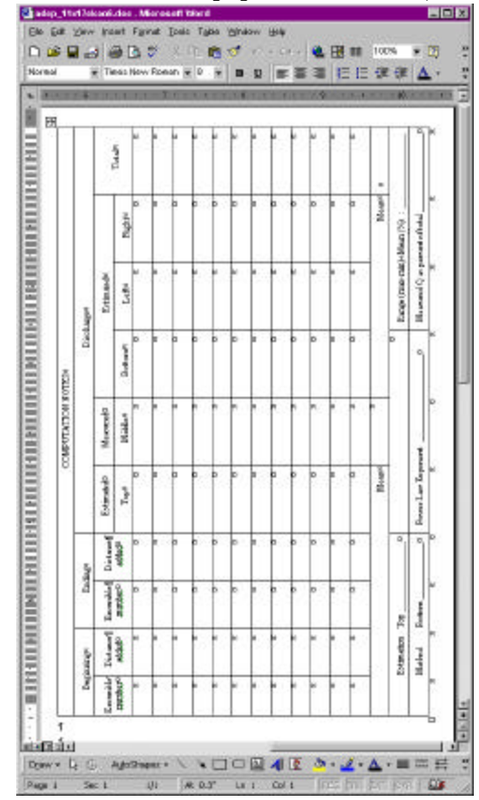
Section A. This is the front section of the form.

Section B. This section will be printed on the back side of section A



Section C. This section will be printed on the same side of the paper as Section A, but a fold will ‘separate’ the two sections.





Section D.—This section will be printed on the reverse side of Section C (on the same side of the paper as section B).
